RT2035AA - RT-2035-A-3.0-R

1. Product And Company Identification			
Supplier HENRY COMPANY 2270 Castle Harbor Place Ontario, CA 91761 Company Contact: R&D Dept. Telephone Number: (909) 947-7224 Web Site: www.resintechnology.com		Manufacturer HENRY COMPANY 2270 Castle Harbor Place Ontario, CA 91761 Company Contact: R&D Dept. Telephone Number: (909) 947-7224 Web Site: www.resintechnology.com	
Supplier Emergency Contacts & Phone Number CHEMTREC: (800) 424-9300		Manufacturer Emergency Contacts & Phone Number CHEMTREC: (800) 424-9300	
Issue Date: 04/12/2010 Product Name: RT2035AA - RT-2035-A-3.0-R Product Code: RT2035AA Product/Material Uses Polyurethane Foam Resin			
2. Composition/Information On Ingredients			
Ingredient Name		CAS Number	Percent Of Total Weight
hydrofluorocarbons		460-73-1	5 - 15
brominated polyalcohol		77098-07-8	5 - 10
diethylene glycol		111-46-6	1 - 5
dimethylcyclohexylamine		98-94-2	1 - 5
polyol blend		not avail.	60 - 80
chlorinated phosphate ester		13674-84-5	5 - 10
EMERGENCY OVERVIEW			
CAUTION. May cause eye and skin irritation. Inhalation of mists, vapors or spray from this product may cause respiratory tract irritation. May cause allergic skin and respiratory tract reaction.			
Appearance/Odor: Amber-colored liquid with a slight aromatic odor.			
3. Hazards Identification			
Primary Routes(s) Of Entry Skin & Eye Contact, Inhalation			
Eye Hazards May cause eye irritation. Irritation may be severe, causing burns and leading to permanent eye damage.			
Skin Hazards May cause skin irritation. Irritation may be severe resulting in burns to the skin from prolonged contact. Harmful if absorbed through skin.			
Ingestion Hazards Ingestion of significant quantities is thought to be unlikely. May be harmful if swallowed. Ingestion may cause: a laxative effect, gastrointestinal upset, nausea and vomiting, central nervous system depression and neurological

3. Hazards Identification - Continued

Ingestion Hazards - Continued

disorders. Ingestion may result in injury to the liver and kidneys. May cause unconsciousness or death if swallowed.

Inhalation Hazards

Inhalation of vapors or mists may cause irritation of the nose and throat. Prolonged or repeated inhalation may cause: central nervous system depression, toxicity to the liver and kidneys. May cause respiratory tract sensitization.

Chronic/Carcinogenicity Effects

None of the ingredients of this product comprising over 0.1% are classified as carcinogenic according to OSHA, National Toxicology Program (NTP), International Agency for Research on Cancer (IARC) or the American Conference of Governmental Industrial Hygienists (ACGIH).

4. First Aid Measures

Eye

In case of contact, hold eyelids apart and immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.

Skin

Remove contaminated clothing and shoes. Wash affected areas with soap and water. Get medical attention immediately if irritation (redness, rash, blistering) develops and persists.

Ingestion

Call a physician or a poison control center immediately.

Inhalation

Remove the person from the contaminated area to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention immediately.

5. Fire Fighting Measures

Flash Point: 269 °F

Flash Point Method: closed cup

Lower Explosive Limit: 7.1%

Upper Explosive Limit: 17.7%

Fire And Explosion Hazards

Thermal decomposition (burning) may release irritating, corrosive and/or toxic gases, vapors and fumes. Closed containers may explode when heated due to increased pressure. Do not puncture, cut open or reuse empty containers.

Extinguishing Media

Use the appropriate extinguishing media for the surrounding fire. Water spray or fog, carbon dioxide (CO₂), dry chemical, alcohol foam.

Fire Fighting Instructions

Firefighters should wear self-contained breathing apparatus and full protective gear.

6. Accidental Release Measures

Eliminate all ignition sources. Contain and/or absorb spill with inert material (e.g. sand, vermiculite). Collect and dispose. Avoid runoff to waterways and sewers.

7. Handling And Storage

Handling And Storage Precautions

Keep containers tightly closed. Store in a cool, dry, well-ventilated area. Protect from physical damage. Use only with adequate ventilation. Wash thoroughly after handling. Empty containers may contain hazardous residue, do not reuse. Open containers slowly to allow any pressure build-up to vent safely. Do not open or spray near eyes and face.

MATERIAL SAFETY DATA SHEET

RT2035AA - RT-2035-A-3.0-R

8. Exposure Controls/Personal Protection

Engineering Controls

Use with adequate ventilation. When used outdoors, stay well away from building air intakes or close the intakes to prevent product from entering building.

Eye/Face Protection

Safety glasses with side shields or goggles recommended.

Skin Protection

Use with chemical-protective gloves to prevent excessive skin contact. Chemical-resistant gloves made of rubber can be used.

Respiratory Protection

The level of respiratory protection needed should be based on the evaluation of chemical exposures by a health or safety professional. If required, use a NIOSH-approved air purifying respirator with organic vapor cartridge or supplied air respirator.

Occupational Exposure Limits for individual ingredients (if available) are listed below.

Ingredient(s) - Exposure Limits

diethylene glycol

AIHA WEEL-TWA 10 mg/m³

9. Physical And Chemical Properties

Appearance

Amber-colored liquid

Odor

Slight aromatic odor

Chemical Type: Mixture

Physical State: Liquid

Boiling Point: not available °F

Specific Gravity: 1.2 @ 70°F

Vapor Pressure: not available

Vapor Density: 5.67 @ 86°F

pH Factor: 7-10

Solubility: moderate in water

10. Stability And Reactivity

Stability: Stable

Hazardous Polymerization: Will not occur

Incompatible Materials

Avoid contact with strong oxidizing agents.

Hazardous Decomposition Products

Toxic and irritating gases, vapors or fumes of: carbon monoxide (CO), carbon dioxide (CO₂), oxides of nitrogen, hydrogen fluoride

11. Toxicological Information

Miscellaneous Toxicological Information

Toxicological testing has not been conducted for this product overall. Available toxicological data for individual ingredients are summarized below.

MATERIAL SAFETY DATA SHEET

Page 4 of 5

RT2035AA - RT-2035-A-3.0-R

11. Toxicological Information - Continued

Ingredient(s) - Toxicological Data

diethylene glycol

Oral-rat LD50: 14800 mg/kg

dimethylcyclohexylamine

oral-mouse LD50: 320 mg/kg

dermal-rat LD50: 370 mg/kg

inhal-rat LC50: 1100 mg/m³/2 hr

chlorinated phosphate ester

oral-rat LD50: 2800 mg/kg

inhal-rat LC50: 4.6 mg/L / 4H

12. Ecological Information

Do not allow into any sewer, on the ground, or into any body of water.

13. Disposal Considerations

Dispose in accordance with applicable federal, state and local government regulations. Avoid/prevent release to the environment.

14. Transport Information

Ground Not restricted

IATA Not restricted

IMDG Not restricted

15. Regulatory Information

SARA Hazard Classes

Acute Health Hazard

Ingredient(s) - State Regulations

diethylene glycol

Pennsylvania - Workplace Hazard

dimethylcyclohexylamine

New Jersey - Workplace Hazard

New Jersey - Special Hazard

New York City - Hazardous Substance

Canadian Regulatory Information

This product has been classified in accordance with the hazard criteria of the CPR and the MSDS contains all the information required by the CPR. WHMIS Classification: D2B - Toxic

Ingredient(s) - Canadian Regulatory Information

dimethylcyclohexylamine

WHMIS - Ingredient Disclosure List

WHMIS - Canada (Pictograms)
